Optimat

The perfectionist among automatic feeders

Optimat Junior

Starting weight: 6 kg
Finishing weight: 30 kg
Feeding points: 6 - 8
Animals/feeder: 30-50
Storage tank capacity: 70 l
Water supply: aqua level feeder
Material- divider: stainless steel
Material- trough system: stainless steel/PE
System height: 92-111 cm
System width: 53 cm

Technical data

- Stable (robust and solid) frame construction
- Robust dosing mechanism
- Ingeniously integrated water circuit
- Total capacity 101 litres
- Easy to clean
- Straightforward quantity adjustment
- Up to 50 animals can be fed at the same time
- Round feeding trough made of stainless steel
- 8 feeding points for simultaneous, quiet and stress-free feeding times
- Reliable prevention of feed bridges forming in the tank
- Minimum feed losses

Feed

- Powder or pelleted feed

Optimat Finisher

Starting weight: 25 kg
Finishing weight: 120 kg
Feeding points: 6-8
Animals/feeder: 24-40
Storage tank capacity: 95 l
Water supply: aqua level feeder
Material- divider: stainless steel
Material- trough system: stainless steel/PE
System height: 92-120 cm
System width: 76 cm

Trough element

- Round trough with separate water section
- The special, patented trough form with separate feeding section and water recesses ensures optimum functionality while avoiding feed losses and providing optimum feed hygiene as a result
- Water supplied with aqua level feeder
